|  |  | This -  |   |  |  |  |
|  |  | Bao Q. Vu   |   |  |  |  |

Bao Q. Vu Primary Examiner Art Unit: 2838 Continuation of 11. does NOT place the application in condition for allowance because: The examiner maintains the rejection. Applicant's narrow interpretation of the word "regulation" is noted, however it does change the facts that the most basic definition of regulation must be applied here. Also, the fact the making something separable that was formally integral is notorious well known in the art and provides no novelty to the claimed invention.
